

Statement regarding TFA work with Ex Libris on the Alma platform

Ex Libris has retained Tech for All, Inc. (TFA, www.TFAConsulting.com) in May of 2017 to conduct accessibility evaluation and provide guidance for its Alma and Primo platforms. TFA completed a comprehensive accessibility audit of the Alma platform in October 2017 for the February release. The audit focused on conformance with WCAG 2.0 Level AA standards (which encompass the Revised Section 508 requirements). Post-testing, TFA has advised Ex Libris as they worked to remediate the accessibility issues discovered in the audit.
