

# Empowering faculty and students for stronger research outcomes

**RefWorks is an easy-to-use reference management service supporting institutions and researchers by streamlining research and writing workflows.**

With its intuitive interface and robust features, RefWorks simplifies the task of managing citations and bibliographies, allowing faculty to focus on their research and teaching.

Students and researchers can collect and organize references in one central workspace, share and collaborate with others and write papers with authoritative citations.

**RefWorks boasts an intuitive interface designed for all user levels.**

## With RefWorks, you can:

- Capture research or course materials from virtually any source.
- Provide one central workspace for your own references.
- Share folders and projects with your students or other researchers in or outside your institution.
- Utilize as a visual aid when discussing student progress on research gathering.
- Collaborate on group projects.
- Automatically generate bibliographies and authoritative citations.

---

## How to get started

RefWorks is provided by your institution. [Create an account](#), or log into your [RefWorks account](#) and familiarize yourself with [features](#) that will help you and your students with data collection, organization, collaboration, and publishing.

## Support and resources

RefWorks offers comprehensive support and resources to help faculty make the most of the tool. Access tutorials, webinars, and user guides with the links below, or [contact the support team](#) for assistance with any questions or issues
