The following packages are released:  
sfx-sw-update-4.10.16.1.run

For directions on applying the revision, refer to the **SFX KB Update section** of the *SFX General User's Guide*.

# SW Changes

Issue Type	Components	Summary	Documentation Changes	Changed Files	Case Number	Jira Number
Defect	Core - SFX Menu	Fixed the problem with an XSS violation error for some EbscoHost sources. This problem was caused when some EbscoHost sources sent an OpenURL 'sid' value with non-allowed values (including spaces, brackets, and dots). The SFX validation was changed to allow these characters in OpenURL 'sid' values.		lib/MetaData/Validator.pm	966539, 966887, 966928, 967347, 967564	SFX-8456
