

Release Notes

SFX June 2024 Release

Table of Contents

Introduction

SW Changes

Highlights

Added support for CDI linking parameters on target level for database type collections

Added new provider IDs from CDI to the SFX CTXO and sourceparsers for Elsevier, DOAJ, American Medical Association, and Verlag Österreich

System upgrades to openssl 3.0.12, Java 17.0.10, and (optional) MariaDB 10.11.6

Applying the Revision

The following packages are released:

sfx-sw-update-4.10.28.run, and sfx-extra-update-4.10.28.run and sfx-extra-update-4.10.26.1.run

For directions on applying the revision, refer to the **SFX KB Update section** of the *SFX General User's Guide*.

SW Changes

Issue Type	Components	Summary	Documentation Changes	Changed Files	Case Number	Jira Number
Enhancement	Back Office - SFXAdmin	Added support for CDI linking parameters on the target level for database type collections. Linking parameters will gradually be added to database types of targets so that they can be used for CDI Link in Record linking and Quicklinks. More information about this type of linking and the providers for which this can be used can be found at: https://knowledge.exlibrisgroup.com/Content/Knowledge_Articles/Primo/Custom_Linking_Parameters_in_CDI_Links	SFX General User's Guide	lib/Admin/Tool.pm templates/sfxctrl/target/list.htm		SFX-8831
Enhancement	SFX Menu	Added new providerIds from CDI to the SFX CTXO and sourceparsers for Elsevier, DOAJ, American Medical Association and Verlag Österreich		config/ctx_attribute.config_		SFX-8857
Enhancement	Infrastructure - Java	System Upgrade - Java upgrade to 17.0.10		revision_maker/apply_extra/extra.conf		SFX-8871
Enhancement	Infrastructure - OpenSSL	System Upgrade - OpenSSL upgrade to 3.0.12		revision_maker/apply_extra/extra.conf		SFX-8863

Issue Type	Components	Summary	Documentation Changes	Changed Files	Case Number	Jira Number
Enhancement	Infrastructure - MariaDB	<p>System Upgrade - MariaDB major upgrade to 10.11</p> <p>Important: This upgrade was already applied for hosted customers. It can now be applied on local SFX servers by following these instructions: After applying the June 2024 release, rerun the Revision Update with this option: rev-up --justapply=sfx-extra-update-4.10.26.1</p> <p>Note that the MariaDB upgrade is automatically applied on all local SFX servers as part of the December 2024 release (for all customers that have not already run the upgrade before the December 2024 release).</p>		revision_maker/apply extra/extra.conf		SFX-8853
Defect	KB Tools - Export	Fixed problem in ServerAdmin Utility - CDI Export for customers with institutes defined. If the institute value is empty when running the CD export, SFX now includes only linking parameters for Default (not institutes).		lib/Admin/Tool.pm		SFX-8885
