SW Changes

Issue Type	Components	Summary	Documentation Changes	Changed Files	Case Number	Jira Number
Improvement	Back Office - SFXAdmin - General, BO KB Tools - Export Tool, CDI	New option for CDI customers to define in SFX their full text linking preferences for "Quicklinks" and "Link in record" links. For each CDI configuration defined in SFXAdmin > Discovery, it is possible to set a priority order per provider that will apply to all CDI "Quicklinks" and "Link in record" links. More information can be found in the <i>SFX General User's Guide</i> . Note that this feature will be available after the next weekly update, when the list of providers will be released as part of the KBDB package.
