2 targets added

Applying the Revision

The following packages are released:

sfx-kbsw-update-20142900.run

sfx-kbdb-update-20142900.run

For directions on applying the revision, refer to the **SFX KB Update** section of the *SFX General User's Guide*.

Changed KB Software

Type of Change	Component	Description	Solution	File List
Correction	TargetParser	Update the article level of the ACM::ACM target parser.	ACM_DIGITAL_LIBRARY linking has been fixed to prevent the creation of DOI based links when the DOI is invalid or resolves externally of a native vendor's platform.	lib/Parsers/TargetParser/ACM/ACM.pm
Correction	TargetParser	Update the article level of the ACM::ACM target parser.	A special configuration file has been created to set DOI prefix values valid for a specific vendor/platform to be integrated into the links to the article linking level.	config/doi_allowed_prefixes_for_linking.config
Correction	TargetParser	Update the article level linking of the WDG::REF target parser.	The WDG::REF target parser has been modified to build article level links based on the native Walter De Gruyter Online platform base URL.	lib/Parsers/TargetParser/WDG/REF.pm
Correction	TargetParser	Update the article level linking of the WDG::REF target parser.	A special configuration file has been created to set DOI prefix values valid for a specific vendor/platform to be integrated into the links to the article linking level.	config/doi_allowed_prefixes_for_linking.config
Correction	Source Parsers	Fix the SAXHandler in OpenURL_0_1/pmid to handle special characters correctly.	The SAXHandler in OpenURL_0_1/pmid has been fixed to handle special characters correctly in different data components in a ctx_object, for example, author name, article title, etc.	lib/Parsers/SourceParser/OpenURL_0_1/pmid.pm
Correction	TargetParser	Wiley::WILEY target parser: add an alternative DOI based article level syntax.	The Wiley::WILEY target parser has been modified to create DOI based article level links as a default option in addition to the currently existing metadata based linking structure.	lib/Parsers/TargetParser/Wiley/WILEY.pm
Correction	TargetParser	Wiley::WILEY target parser: add an alternative DOI based article level syntax.	A special configuration file has been created to set DOI prefix values valid for a specific vendor/platform to be integrated into the links to the article linking level.	config/doi_allowed_prefixes_for_linking.config

New Targets and Target Services

Target Name	Description	Target Service	Linking Level	For More Information
CCC_GET_IT_NOW_INTELLECT	CopyrightClearanceCenter delivery of fulltext for content to which the library does not subscribe. Only available to US institutions with an agreement with CCC.	getDocumentDelivery	JOURNAL	For more information: http://www.copyright.com/content/c3/en/toolbar/productsAndSolutions/getitnow.html
CCC_GET_IT_NOW_MANEY	CopyrightClearanceCenter delivery of fulltext for content to which the library does not subscribe. Only available to US institutions with an agreement with CCC.	getDocumentDelivery	ARTICLE_DOI	For more information: http://www.copyright.com/content/c3/en/toolbar/productsAndSolutions/getitnow.html
