Table of Contents

Changed KB Software
New Targets and Target Services

Highlights

152 targets added

System upgrades (Perl and Solr - Refer to the Highlights section for more information)

Configuring the default number of sources and targets displayed in KBManager (NERS voted item)

Highlight the Localized Indicator if the object portfolio in the Portfolio List, the target in the Target List, or the target service in the Target Services list has an Authentication Note, a General Note, or an Internal Description. This is an extension of the existing indication (NERS voted item)

Performance improvement for PlugIns (beta release) (NERS voted item)

Targets to be Removed in the 20182800 Revision:

IOP_CONCISE_PHYSICS_EBOOKS – content available via INSTITUTE_OF_PHYSICS_CONCISE_PHYSICS
IOP_EXPANDING_PHYSICS_EBOOKS – content available via INSTITUTE_OF_PHYSICS_EXPANDING_PHYSICS
OPENEDITION_FREEMIUM_FOR_BOOKS – content available via OPENEDITION_BOOKS_FREE
OXRESEARCH_DATABASE – content available via PROQUEST_OXRESEARCH_DATABASE

Targets Removed (as announced in the 20182000 Revision):

PORTICO_ARCHIVE – As requested by the vendor. Content can be found via:
* PORTICO_TRIGGERED_EJOURNAL_FOR_PARTICIPANTS
* PORTICO_TRIGGERED_EJOURNAL_OPEN_ACCESS
* PORTICO_TRIGGERED_EBOOK_FOR_PARTICIPANTS

Targets to be Removed in the Next Revision (20182500):

DESLIBRIS_GREY_HOUSE_DIRECTORIES – As requested by vendor – collection has been discontinued

Applying the Revision

The following packages are released:

sfx-kbaw-update-20182400.run
sfx-kbdb-update-20182400.run
sfx-sw-update-4.10.4.run
sfx-extra-update-4.10.4.run

For directions on applying the revision, refer to the **SFX KB Update** section of the *SFX General User's Guide*.

Highlights

This release contains several enhancements as well as the code for preparing a PERL system upgrade. Read the notes carefully. If you have a local installation, and you have to run the Upgrade Kit yourself, be sure to do so before applying the September release.

Enhancement Highlights

Configuring the default number of sources and targets that appear in KBManager (NERS voted item).

You can now set in a configuration file the default number of items you want to appear in the target and source lists in KBManager.

Highlight the Localized Indicator if the object portfolio in the Portfolio List, the target in the Target List, or the target service in the Target Services list has an Authentication Note, a General Note, or an Internal Description. This is an extension of the existing indication (NERS voted item).

The broken link email was enhanced to include the full OpenURL.

Performance improvement for PlugIns (beta release) (NERS voted item)

The performance of PlugIns was enhanced by processing them in parallel. This is an enhancement voted for by the user group. This is only for beta release testers. Send an email to christine.stohn@exlibrisgroup.com if you are willing to participate in the beta test.

System Upgrades

With this release, we are preparing the upgrade to Perl 5.24.3 and a 64bit architecture. This upgrade is necessary for security reasons and to optimize memory use as well as performance. The actual upgrade will require root access and we will therefore release a separate upgrade kit in the beginning of July. For our cloud customers, the upgrade will be done by our cloud team and no further action is required.

Our customers with local installations will run the upgrade kit on their own. We will provide full documentation.

Note that we do not support RH 4 or 5. The upgrade kit requires RH 6.

The upgrade is mandatory for all future software releases. You will not be able to apply the September release if you do not run the upgrade before that. KnowledgeBase updates are not affected and can still be applied. Apart from the new Perl version, the upgrade kit also contains Apache 2.4 and mod_perl.

Changed KB Software

Type of Change	Component	Description	Solution	File List
Correction	TargetParser	Change the PROQUEST/open.pm target parser for Primo Newspaper linking.	Change the PROQUEST/open.pm target parser for Primo Newspaper linking.	lib/Parsers/TargetParser/PROQUEST/open.pm
Correction	TargetParser	PORTICO::PORTICO journal level update - url_end.	The PORTICO::PORTICO target parser has been updated to improve journal level linking.	lib/Parsers/TargetParser/PORTICO/PORTICO.pm

SFX-7321	

Type of Change	Component	Description	File List	Documentation Changes	Defect #	SF case
Enhancement	Infrastructure - Perl	<p>With this release we are preparing the upgrade to Perl 5.24.3 and a 64bit architecture. This upgrade is necessary for security reasons and to optimize memory use as well as performance. The actual upgrade will require root access and we will therefore release a separate upgrade kit at the beginning of July. For our cloud customers, the upgrade will be done by our cloud team and no further action is required.</p> <p>Our customers with local installations will have to run the upgrade kit on their own. We will provide full documentation.</p> <p>Note that we do not support RH 4 or 5. The upgrade kit requires RH 6.</p> <p>The upgrade is mandatory for all for the following software releases. You will not be able to apply the September release if you have not run the upgrade before that. KnowledgeBase updates are not affected and can still be applied. Apart from the new Perl version, the upgrade kit also contains Apache 2.4 and mod_perl.</p>	<p>admin/server_admin_util lib/AZLIST/Base.pm lib/DBLayer/Multilanguage.pm lib/NetWrap/Email.pm lib/SFXMenu/Engine.pm lib/Solr/ConfigurationManager.pm lib/Solr/AZQuery/StatementHandler.pm lib/Solr/IndexBuilder.pm sfxadmin/multilanguage/message_list.cgi sfxad</p>		SFX-7205	
Enhancement	Infrastructure - Solr	<p>Upgrade kit for Solr 4.7 to 5.x. The Solr upgrade will be run fully automatically as part of the revision update. As part of the upgrade process, Solr will be restarted, resulting in one minute of downtime.</p>	<p>□ solr/solr.xml□</p>		SFX-7204	
Enhancement	SFX Menu - SFX Menu	<p>Improve the "Report Broken Link" mail for librarians to contain full OpenURL.</p>	<p>□ lib/Beacon/SFXMenu.pm□</p>	SFX General User's Guide	SFX-4104	492410
Defect	Back Office - General (SFX)	<p>Fixed Ex Libris logo link in the SFXAdmin login page to navigate to the Ex Libris home page.</p>	<p>□ templates/sfxctrl/login/login.tmpl□</p>		SFX-7385
