Summary	Release Notes Comments	Component/s	Key
WebV: In email record URL is truncated, leaving invalid link in emailed record	A previous fix for EndNote export in Voyager 10.1 was too broad and affecting email record URLs. Refactor the previous fix.	WebVoyage	VYG-7541
Temporarily Shelved at string not appearing for some records in WebVoyage	Fixed so that "Temporarily shelved at" appears when the item is at a temporary location (in the one case where it was missing).	WebVoyage	VYG-7551
Pick and Scan is nulling UNSuppress in OPAC data (null check box) in BIB record when using "OK to Export"	The solution is to always send the value of the flag, regardless of its current value, even if NO CHANGE has been selected.	Pick and Scan	VYG-7657
Subfield "t" not mapped for MFHDs created with Multiple MFHD Bulk Import Profiles	Fixed the mapping for multiple MFHD / Additional 852 Subfields / Copy number (\$t) in Bulk Import.	Bulk Import	VYG-7696
MarcExport of Bib-Mfhd Groups Record Type shows Record Type of "BIB" in log files	Changed MarcExport logging from "Record Type: BIB" to "Record Type: BIB-MFHD Groups" when exporting Bib-MFHD groups.	MARC Export	VYG-7698
Renew Only option in Charged Items Index sometimes prints due date slips	Ensure the option to skip printing is respected during the entire renew process, including overriding blocks, etc.	Circulation	VYG-7760
